Habib Bashir Lawal

Data Scientist

+234 814 953 5954 bashirhabib01@gmail.com linkedin.com/in/habib-bashir-lawal-6034a227b github.com/Lbashirhabib
Kaduna State, Nigeria

SUMMARY

Data Scientist with a strong foundation in Python, SQL, and machine learning, focused on turning data into actionable insights. Experienced in building predictive models and data solutions using real-world datasets. Combines data science expertise with an electrical engineering background for practical problem-solving

SKILLS

Technical Skills

Pandas | NumPy | Data Cleaning | Exploratory Data Analysis (EDA) | Statistical Analysis | Python | SQL | Scikit-learn | Supervised Learning | Unsupervised Learning | Model Evaluation | PostgreSQL | Relational Databases | Git | GitHub | Jupyter Notebook | Microsoft Excel

EDUCATION

B.Sc. Data Science

International University of Applied Sciences, Berlin

2026 - 2029 Berlin, Germany

- Focus: machine learning, big data analytics, AI applications, Python, SQL, statistical modeling, and data visualization

B.Eng. Electrical Engineering

Kano University of Science and Technology

2021 - 2027

- Relevant areas include computer engineering, power systems, renewable energy, control engineering, circuit analysis, signal processing, and embedded systems

Nano Diploma in Computer Science

Micro Manna Computer College

2020 - 2021

EXPERIENCE

Field Research Assistant

Kaduna State Health Workforce Productivity Assessment

- Collected field data from healthcare professionals across selected primary healthcare centres
- Conducted structured interviews using ODK Data Collector

SIWESS 2 Intern

Federal Radio Corporation of Nigeria

- Monitored and controlled broadcast equipment in the Line Room, Master Control Room, and Links Hall

SIWESS 1 Intern

Kaduna State Polytechnic

- Worked on a solar energy system upgrade for laboratory power systems

Undergraduate Ambassador

Cowrywise

- Organized financial literacy sessions for 150+ students
- Contributed to a 20% increase in sign-ups

Administrative Support Staff

Lafiya Project Support UK & Nigeria

- Managed schedules, documentation, and reporting for health programs

Adhoc Demarcation Staff

National Population Commission

- Participated in field mapping and boundary verification

PROJECTS

Real-Time E-Commerce Data Pipeline

Built an automated streaming data pipeline for a simulated e-commerce platform

- Built a fully automated real-time data pipeline using Kafka, Spark, Airflow, dbt, and Docker
- Processed streaming transactions, transformed data through dbt layers, and powered a live business dashboard without manual processing

Alzheimer's Disease Classification using CNN

Built a deep learning model to classify medical images into four stages of Alzheimer's disease

- Used transfer learning approaches including VGG16, ResNet50, and EfficientNetB0
- Processed approximately 44,000 MRI-like images

Telco Customer Churn Prediction

Developed a customer churn prediction model

- Achieved ROC-AUC of 0.84
- Engineered features and identified key churn drivers including contract type, tenure, and monthly charges

Airbnb-Style Booking Platform Database

Designed and built a database system for a booking platform

- Created 20+ tables covering users, listings, bookings, reviews, and payments
- Created an Entity Relationship Model and populated the database with sample records
- Delivered documentation including requirements, SQL scripts, installation instructions, and presentation materials

Healthcare Machine Learning Projects

Built Python-based machine learning models for healthcare applications

- Kidney disease classification
- Diabetes risk prediction
- Brain tumor classification

Solar System Capacity Upgrade

Worked on solar energy system upgrade project

- Upgraded laboratory power systems with solar energy solutions

CERTIFICATIONS

Associate Data Scientist

DataCamp 2023

Data Science Track

3million Technical Tallent-3MTT 2025 Cohort 3

Universal AI Course

MIT x 3MTT 2026

Data Science and Advanced Machine Learning

DeepTech Ready 2025 Cohort 2

CS50x Introduction to Computer Science

Harvard University 2023-2024
